ABOUT ME

I started my journey with programming in 2019. At first it was only a hobby, but by the end of 2020 it became my passion. I learnt almost everything on my own, I had to be disciplined, organized and creative. Lately I started working as freelancer in my spare time and now I decided to become programmer full time.
I have created my own website portfolio which you can check out now. I am still at the beginning of my career, but I learn fast and I believe I could be a real asset in your team. I would be happy to prove that on the interview!

PROFESSIONAL EXPERIENCE

Makis Art gallery React. Node
Website created for artist based in London.
https://makislazos.netlify.app/

OneStop (XII 2022 - Present) London
